Introduction

Astrology is as old as measured time. Although there are many different approaches to astrology, all astrologers appear united in the idea that there is a connection between the heavens and the Earth -- they share one common space. For centuries there has been a misunderstanding concerning the nature of astrology to the effect that the heavens somehow "influence" events here on Earth. This theory of celestial influence has penetrated into the modern world until today it is the main concept or idea of astrology supported by the public -- the lay astrological audience. Professional astrologers do not hold with theories of celestial influence. Instead, the modern astrologer conceives of the heavens and Earth as united, interpenetrating, and sharing a common space and time. The great cosmic or celestial events happening around and beyond the Earth (eclipses, lineups, and so on) are not seen as CAUSING events to occur on Earth, but as great signatures of events ALSO happening here on Earth. In other words, there is no "cause" in the heavens followed by an "effect" here on Earth. Instead, both planetary and earthly events happen simultaneously and are mutually reflective. Neither is the cause of the other; both are the product of the moment, one acted out in the heavens above, the other here on the Earth below. While astrologers don't feel that heavenly events are the cause of events here on Earth, they do feel that specific heavenly events are enacted here on the Earth too -- at the same moment. In other words, there is only one grand "play." The great drama enacted in the sky is also acted out (in exact detail) here on Earth in the same instant. Another way to say this is that the Earth is part of the cosmos and shares in that cosmic moment. Scientists have been discovering (for example) that sunspots, solar flares, and solar activity have a very definite (and almost immediate) effect here on Earth. Astrologers tend to feel that all major cosmic events such as eclipses are interactive; they represent an activity also taking place within us and our consciousness. In summary, astrology is a study of heavenly cycles and cosmic events as they are reflected in our earthly environment and vice-versa -- a vast cosmic clock. Astrologers find the cosmic patterns revealed in the rhythmic motions of the planets a great help in shedding light on the seeming helter-skelter of everyday life. Astrologers may have their heads in the heavens, but only to better guide their feet here on Earth. We hope you enjoy your Astro*Talk profile. It has been calculated using sophisticated astronomical formulae to ensure high accuracy. On the next page you will find a list of the zodiac positions of your natal planets along with the house cusps for your birth moment.

Your Rising Sign

First let's take a quick look at your ascendant, or rising sign. Astrologers want to know what zodiac sign is rising at birth, since this gives a picture of the way you appear or come across to

others.

You come across as emotional and reactive. You sense things rather than think them through. You tend to mother and include everyone within your protective envelope... are more comfortable in this role.

Planet Aspects

The Lights: The Sun and Moon

At the time of our birth, the planets (through their configurations and relationships) tell us something about how things were when we were born. Each planet points to special qualities within us. Yet, of all the planets, the two most important planets to astrologers are the "lights," the Sun and the Moon. From where we stand here on Earth, the great shining Sun by day and the reflecting Moon at night are our constant companions. They have much to tell us as to where we have been and where we are headed.

The Sun: Your Self and Future

From the Sun comes light, that which draws us into life. The Sun represents all the changes we have not yet taken, that part of us that we have not yet experienced but are headed toward. The Sun represents our identity, or self, in that it is toward these that we are moving and developing. Thus, it also represents that which we will become: older people, authorities -- those we look toward, or up to. Our essence, or future. Teachers, gurus, and older (more experienced) people are represented by the Sun. The Sun is "hot stuff," those further up the road of life experience.

You are long-suffering and able to take a lot for the sake of your beliefs and ideals. In this sense, you are very future-oriented. You are intuitive and at home with the psyche and psychological. A sense of the mystic too. You are able to carry ideas and dreams into reality, to make the spirit matter.

Sun in Pisces

You tend to be stubborn and unable to make solid career choices. You get carried away and go off in directions contrary to your actual needs. Your judgment in vocational matters is often off, sending you on a wild goose chase. In addition, there is possible difficulty with authorities and the law and/or differences with older people. To use an old adage, you can (at times) be your own worst enemy. The advice of a trusted friend regarding career is to be recommended.

Sun Square Jupiter

You find it easy to work with sensitive material, touching upon the more vulnerable areas of the mind or self. You are able to handle these delicate matters without ever breaking stride, for emotional and tender areas of the human psyche don't phase you. You enjoy getting beneath the surface and have an innate savvy for handling touchy subjects. This is perfect for any research investigation or plain old detective work.

Sun Sextile Pluto

You naturally gravitate toward positions of power and authority. Others see in you great practical ability and accept you as a leader or authority figure very easily. Your career may be very important to you, even at the expense of home life.

Sun Conjunction Midheaven

The Moon: The Support System

Here is information about the kind of environment we create around us, our support system. It is not only the surroundings that we set up today, but the Moon also represents our past, the particular history and social background out of which we grew. Aside from our social background, the Moon governs all of the old habits that we have grown beyond. We tend to look down on, or back on, our Moon. It represents those experiences out of which we have come, all those younger souls who are unconscious, or "sub" conscious to our own level. This is why it is said that the Moon is a mystery planet, for it is both our parent and our child: our parent in that out of it we were born, our child in that we can't but respond to others who are now living as we once did.

You have strong, stable emotions and tend to draw around you the perfect environment for your upbringing. The thing you need is always at hand. In addition, you get much support and good fortune from friends and relatives. You value constancy and security in all things and possess a good business sense. You are, by nature, very domestic and enjoy nice surroundings.

Moon in Taurus

Your ideas and images about the traditional (history in general) and the environment around you make it easy for you to work with and teach others. You understand and perform well with younger people and know what it takes to create a supportive environment. You handle words and tell stories with consummate skill, and others love to hear you speak or entertain. You have a touch of the Blarney Stone about you.

Moon Sextile Mercury

You have a natural appreciation for the past, personal as well as world history -- all that is traditional. You find it easy to work with music, color, fabric, and the arts -- whatever is beautiful and genial. You would make a superb decorator of homes and, in general, all kinds of environments. You enjoy moods and emotions (whatever is psychological), especially in a group setting. Younger people, the helpless, and the needy can always be found under your umbrella.

Moon Sextile Venus

You find it easy to work with other people and tend to pour a lot of energy into those around you. Your home and surroundings reflect this. When it comes to teaching or coaching younger people, you are a natural, always able to motivate and inspire others. With your powerful spirit, you enjoy your strong emotions and have an active social life as well.

Moon Trine Mars

You have a knack for always finding assistance in whatever career moves you decide to make. In fact, your ability to rally support makes a public career of one kind or another quite probable. Success is indicated in education, politics, or the law. You know how to attack and solve problems, whether personal or public. Chances are, your social skills mean that you are popular with almost everyone.

Moon Trine Jupiter

Your sense of responsibility is so well developed that you always end up managing any situation you become involved in. You are disciplined, work hard, and are good at getting others to work with and for you. Perhaps a little too serious and frugal, you enjoy getting along on less. Essentials are what count. You like to keep to yourself and tend to avoid too much socializing. Others may prefer keeping some distance too.

Moon Sextile Saturn

You find the past, tradition, and all that is historical very romantic, and the ideal world of yesteryear seems to beckon and call. You are most imaginative when it comes to anything spiritual, or psychological -- pertaining to the psyche. Others find you entrancing and always able to draw them into your world of images and dreams. You can inspire them with spiritual ideals. No one has any doubt that you are a high floater -- a full-blown dreamer, complete with built-in psychic abilities and probably given to visions.

Moon Conjunction Neptune

Everything seems to conspire to put you in the limelight. You always come off well in a group and manage to get your ideas across.

Moon Sextile Ascendant

The Inner Planets: Mercury and Venus

The planets Mercury and Venus have more to do with our internal and personal life than with life outside us. These inner planets are located between the orbit of the Earth and the Sun. We can look to qualities that are inside us. Venus indicates how we appreciate and measure our experience, how we value life. Mercury tells us something about how our mind works, how we think and communicate -- our intrinsic brightness.

Mercury: The Mind and Communication

Mercury is the light in our eyes, the ever-changing consciousness within us that moves from idea to idea. Thus Mercury has always represented thoughts, ideas, and the mental process in general. It governs not only ideas, but communications, too. Communications -- by phone, letter, spoken, or however -- are ruled by Mercury. Also thoughts, connections, phone wires, and everything that connects and conveys -- even conversations.

You are an intuitive rather than a rational thinker, and psychological thought (the psyche), mysticism and religion are natural. You love poetry and music, tending to feel or sense with your mind the truth of a situation. You are very sympathetic and understanding and have kind thoughts. Compassionate.

Mercury in Pisces

A great speaker or entertainer. At the very least, the gift of gab. Working with or teaching others and communicating via the mind in general are indicated. A natural storyteller, you are at home in the world of myths and dreams.

Moon Sextile Mercury

You have a love affair going with the mind and you value all of its offspring: words, ideas, thoughts, and such. And you love to talk. In particular you appreciate good conversation, and you feel that stimulating mental adventures (either alone or with others) are among the most exciting experiences life offers. You have a built-in sense of discrimination when it comes to the intellect -- all mental activities.

Mercury Conjunction Venus

You have a great love of the written and spoken word, and ideas in all their flavors are what you like best to work with. Your enthusiasm for mind, the intellect, and the world of ideas makes it easy for you to communicate these things to others. You would be a good teacher. You have no

trouble putting your feelings into words, and what you say always carries a lot of content. You could make a fine entertainer and an excellent speaker.

Mercury Sextile Mars

You are very deliberate when it comes to words, to what you say and think. When you concentrate, you always come up with what is essential to the matter at hand, ignoring all else. You're anything but "flip," and your more serious approach to ideas, while welcome when there is mental work to do, may not always be appreciated when others are in more social moods. You are so serious. Philosophy, religion, and the like are natural for you.

Mercury Conjunction Saturn

Your mind is ever on communication, how you present yourself and come across with others. It is easy for you to express yourself in a crowd, and you are a real smoothie. Everything seems to work out for you when you are talking with others.

Mercury Trine Ascendant

Venus: Values and Discrimination

Venus rules our values and sense of appreciation. When we appraise or appreciate something, whether that be another person or a new car, this is Venus -- the sense of love and compassion we may feel. By the same token, this planet rules enjoyment too. Whether it be self-appreciation or just plain old decadent self-enjoyment by having a good time, this is Venus. When we go shopping or are on a spending spree, it is Venus that allows us to appreciate and value all the good things of life.

You have deep commitments and appreciate sacrifice and duty on the part of others. At home in the world of the dreamer and mystic, you have great intuition. You are always willing to sublimate and take the back seat. Domestic at heart, you love family life. A true romantic. Musical, psychological, poetic, gentle.

Venus in Pisces

A born charmer with an innate love and appreciation for other people, especially children. A sense of color, of music and all of the arts -- the beautiful and the comfortable. Always welcome in a group, you are a connoisseur of things bright and kind.

Moon Sextile Venus

You love words and ideas and sharing them through writing, speaking, and so on. You love to talk. You appreciate and value the intellect and all mental activities, have great taste and an eye for all that is fine. You are sharp when purchasing, a connoisseur.

Mercury Conjunction Venus

You love to work with younger people and would make a superb teacher or coach. You appreciate a heart-felt approach and are an enthusiast if there ever was one. You understand and encourage emotions, feelings and creativity and find it easy to work in these areas. You value drive and the ability to get things done. Matters of the heart, marriage, and the like are areas where you can help others.

Venus Sextile Mars

You value the simple life and have little use for pomp and circumstance. Your appreciation for hard work and discipline is natural and lifelong. You actually love responsibility and tend to pile on the work. Others may find you frugal or unnecessarily Spartan, but you love simplicity as

much as they love opulence. You can discriminate the wheat from the chaff and put great value on organization.

Venus Conjunction Saturn

You love appearances and have a way of pleasing others and coming across as loving and kind.

Venus Trine Ascendant

The External Planets: Mars, Jupiter, Saturn

The major planets outside the Earth's orbit (external to us) are Mars, Jupiter, and Saturn. These are the planets of the outer world -- life as we find it outside ourselves. Mars tells us something about the drive and energy we have, Jupiter shows us how to best channel that energy, and Saturn decrees what sort of material or territory we will be passing through. Again: Saturn tells us about the territory we will be going through, Jupiter the way or path through it, and Mars what kind of push or drive we can count on to keep going.

Mars: Drive and Emotions

Mars is the planet of emotion and inner motivation or drive. When we search for the meaning of something, life or whatever, it is Mars that urges us on, keeps us searching. Mars also drives us against things, too and sends us into war and combat. The urgency of Mars, the search for meaning, is identical to the need for union, yoga, and marriage. Mars is the planet of union, and marriage is the most common form of yoga. When we have questions about the opposite sex, we are looking at the planet Mars.

You are a very hard worker and are driven to accomplish, manage, and be in control. You like to manipulate a situation for its own benefit and would make a natural supervisor. You have an inner urge for order and organization and a great sense of responsibility. You are competent, ambitious, and cool.

Mars in Capricorn

A born coach or teacher, you are at home in the physical and "doing" areas of life. An inspiration and driving force in the lives of others. Quite able to manage a very active and strong emotional life. Strong spirit. Attractive. Direct, perhaps loud.

Moon Trine Mars

Language, sound, "the spoken word" are in focus. The ability to give words meaning or to put ideas into words and give others a feeling for what things mean. Communicating with words. Also a sharp and clear mind. Quick, even clever. Entertaining.

Mercury Sextile Mars

All heart! Feelings are always out front and entirely natural. Love of action, motion (sports, physical, sex, and the like). An expert at matters of the heart. Children, animals, and all creative work get top billing. Always act on instinct, feelings.

Venus Sextile Mars

The word here is accomplishment. If there is a job, you can do it. A prodigious worker, you pour yourself into any task with absolute determination. You are responsible to the extreme and take on obligations as though you just can't get enough. You enjoy discipline, and limitations are seen as opportunities rather than as handicaps. You would make a good teacher of others in

matters of organization, practical competence, and the like. You have a great desire and drive to be thorough and responsible down to the smallest details. You always know what is essential and what is not. You love the routine.

Mars Sextile Saturn

You have an ability to work with the imagination, reaching beyond the mundane to the potential beyond. Your enthusiasm for mystical and religious experience makes you an excellent teacher in artistic and creative matters. Your sense of the unity behind things spiritual and psychological is clear and felt by those around you. You are, no doubt, a romantic, at home in the world of dreams and images. You enjoy working in these areas.

Mars Trine Neptune

You are very competitive -- even pushy -- when it comes to partners and other people. You have a great social drive and love to work in a group or with close friends.

Mars Opposition Ascendant

Jupiter: Career and Life Path

Jupiter is the planet of success and simple survival, the way we have to solve the problems that confront us. Thus Jupiter has to do with the way in which we can be successful, our vocation. The Hindu word for Jupiter is Guru. Jupiter is the guru and guide, the way we go through life, our life path or vocation. Jupiter is the method each of us has for dealing with the laws of life, our Saturn, or limitations. Jupiter is the light or path. Jupiter provides us with our sense of direction, the path we are on, the way we handle life. It affects how we approach life's problems. It has always been an indicator of how successful we may be, our vocation.

The perfect manager: conservative and professional in all things. Your career is all-important. A "doer," you are always practical. Never ruled by emotions, you are cool, capable, and competent. You are quick to get the outline or skeleton of a project, to see how things work.

Jupiter in Capricorn

You may tend to take paths at right angles to your real ambitions and self-interest. Trouble with authorities or older people can result. Your struggle to succeed is aided when you show self-control or discipline and find that middle road.

Sun Square Jupiter

Like a fish in water when in the limelight or in a group, you have an innate social charm. Political and lucky too! A natural sense of what's right or of the way to get things done brings great popularity, even renown. Law, education. Could be lazy.

Moon Trine Jupiter

You would do well in a career in music, poetry, psychology, philosophy -- the realms of the imagination. You work well in these areas and can help or teach others by sharing your understanding. You can serve as a guide to the nether worlds of the mind and psyche -- religions, mysticism, and so on. Spiritual problems and questions are easy, for you always grasp the unity behind what appears separate.

Jupiter Trine Neptune

You excel as a social being, and should make a career out of your deep-seated interest in other people, partnerships, relationships, and so on. You find yourself through other people.

Saturn: Responsibilities

The process of finding out who we are (self-discovery) starts when we come to grips with whatever problems life presents to us and begin to get a handle on them. In other words, if we have not dealt with Saturn, or time (that is, if we don't have some control of time), there is little opportunity for other questions. Saturn rules the laws and limitations of this material world we all live in. Saturn indicates where we are bound to learn, the narrowness that makes our way felt, the walls that make homes possible. Saturn holds us together as much as apart. Saturn is said to be the great teacher, the planet that keeps us from getting carried away in one direction or another. Although it always seeks to limit and determine any thought, word, or action, it also defines and clarifies. Saturn is called the prince of the material world.

There could be problems with selfishness. You tend to ignore or avoid opportunities to help out and give of yourself. You fear the deeper, mystical side of life and need to practice putting others before yourself. Also learn to use intuition and feelings. Lend a helping hand.

Saturn in Pisces

A tireless and disciplined worker, you have a tendency to be serious and to prefer being alone over entering the social scene. You can get the most out of others, get them to work under you. A wisdom that comes from simple needs. Conservative. Careful.

Moon Sextile Saturn

You are a serious thinker and don't often waste words. Concentration is easy for you, and detailed, technical, mental work would suit you just fine. Not free with your words, some may find you a tad on the sober side. A disciplined mind.

Mercury Conjunction Saturn

You love discipline, organization, and all of your responsibilities. You are uninterested in the frills of life and value only what is essential, the bare bones. Your love of simplicity may appear as austerity and frugality to others.

Venus Conjunction Saturn

Applied force. Practical competence. Tremendous discipline and a love of routine work. Ability to simplify, code, and reduce a subject to its essential elements. Inner drive to be thorough and responsible in minute details. Self-disciplined.

Mars Sextile Saturn

You express yourself deliberately and don't waste your words. You have a natural sense of organization and come across as disciplined and careful, perhaps a little too sober.

Saturn Trine Ascendant

The Outer Planets

In the previous sections, we have dealt with planets that we can see with our naked eyes. In general, these planets refer to life as we know and live it and are the so-called historical or classic planets. Beyond these are three planets that are not visible in the sky and which have cycles longer than the average human life span. Since they are beyond Saturn or time, astrologers call them the trans-personal or transcendental planets -- the planets beyond the physical. One of the ways astrologers learn something about our life beyond time (eternal life) is through these three outer planets: Uranus, Neptune, and Pluto. Here we find information on how we discover

ourselves (Uranus), how we understand and accept these discoveries (Neptune), and, in time, how we depend and identify with them (Pluto).

Uranus: Break-Thrus & Insights

Our responsibilities can tend to weigh us down, and we each have our particular ways of getting around (or breaking through) the mass of obstructions that tends to congeal around us. The planet that has to do with how we get beyond the difficulties and problems life presents us is Uranus. Here is the way insights come to us, how we discover or come to know and understand ourselves. It has to do with finding new uses for old things, and it rules inventions and sudden insights into our life -- everything that is unusual, eccentric, and out of the ordinary. It is the reverse of the status quo and is always unconventional and heretical. Uranus is, in many ways, the opposite, or undoing of Saturn.

You have great insight into matters of personal freedom. You come up with brilliant ways to express, emote or act things out. New methods of lovemaking, raising kids, caring for animals are yours. You are outspoken, very dramatic, impressive, and even regal. You relax with children, sports, acting, singing, and such. You really like yourself.

Uranus in Leo

Your passion for freedom and independence stops short of the personal and private areas of your life. You don't feel so free when things get psychological and analytical. You tend to rebel against all interaction that gets close and personal. Feeling vulnerable or exposed causes you to freak out and break away.

Uranus Square Pluto

Neptune: Ideals & Imagination

Even the most hard-nosed of us have moments of real understanding, when things are seen as linked together and one piece. We stop getting the idea in little flashes and just get the whole thing. It dawns on us. We each have our own way of letting go, having communion, and (as the poet wrote) letting "the dewdrop slip into the shining sea." These moments and this state of mind are, in fact, the source for all our imagination. There are many ways of seeing through the separateness in the world to the unity behind it.

Your ideals are fertile soil and bring real growth. You find a richness in music and the arts. You have a vision of a comfortable dream, a luxurious life, where everything of value flourishes, where every good seed takes root. Romance, wealth, and great art are of interest. A rich field of experience. Sound.

Neptune in Taurus

You are a dreamer, with real psychic abilities and prone to visions. You are like a fish in water when it comes to spellbinding a group with images and dreams -- entrancing. The psychology of groups and cultures is transparent to you.

Moon Conjunction Neptune

Driven towards the communal, to what unifies us all. Always seeing what we hold in common, rather than our differences. Idealism of a high order. Religious themes. Romantic. At home in psychic or psychological realms. The common denominator.

Mars Trine Neptune

Prefer the forest to the trees, the common to the uncommon or special. At home in ideas of man's essential unity. Religious and psychological ideas are natural. Will act as a minister to others, like it or not. You can sense and see the unity of life.

Jupiter Trine Neptune

Pluto: Inner Change and Growth

Pluto is the planet of profound change, starting deep within us and moving toward the surface. It often touches upon the most sensitive psychological areas inside us. Once touched, we have no choice but to change and grow. The most sensitive of experiences, the times of greatest vulnerability, are times of complete identification with an experience, a person, or a thing. We know in these instants that we are looking at our self, what we are. The most personal of experiences is one of complete identification with a person, moment, or idea. Perhaps this is only possible for most of us when we look into our child's eyes, and then only infrequently. Love is not the experience here, but total identification. This is very sensitive stuff. To touch upon this material is to go through deep inner change and transformation -- inner alchemy. Identification and experiencing that life is our own creation and that, in fact, you are I and I am you. This experience breaks us down and humbles. When we touch upon this experience, we cannot but die to what we have been thinking and doing up to now. It reduces us to our most sensitive because -- in a flash -- we see or remember that it all is us, our life.

You could be a terrific business person, as you have an ability to get past the surface of things and separate out that with real worth. In the area of possessions and material goods, you will go through a lot of changes, learn a lot.

Pluto in Taurus

Innate intensity and seriousness are visible to all. A sense of the eternal aspects of life makes authority and leadership positions natural and unavoidable. A gut sense of how to act in stress situations. Lots of charisma. Power.

Sun Sextile Pluto

Your sense of originality and insight does not go so far as to inquire into areas of psychological sensitivity and vulnerability, which you tend to leave alone. This can produce tension to the degree that you possess a need for inner growth and change.

Uranus Square Pluto

The supportive help of women or a girl can be an important factor that will affect business or reputation and increase your sense of security. You are a fine psychologist, researcher, or detective and are good at dealing with joint or others' finances.

Pluto Sextile Midheaven

Challenges and Abilities

Focus

These are areas of life where we show intense focus and activity. For better or worse, these

qualities stand out and are obvious to all those who come to know us. They are very clear parts of our character.

You are very deliberate when it comes to words, to what you say and think. When you concentrate, you always come up with what is essential to the matter at hand, ignoring all else. You're anything but "flip," and your more serious approach to ideas, while welcome when there is mental work to do, may not always be appreciated when others are in more social moods. You are so serious. Philosophy, religion, and the like are natural for you.

Mercury Conjunction Saturn 01°19'

You naturally gravitate toward positions of power and authority. Others see in you great practical ability and accept you as a leader or authority figure very easily. Your career may be very important to you, even at the expense of home life.

Sun Conjunction Midheaven 02°12'

You value the simple life and have little use for pomp and circumstance. Your appreciation for hard work and discipline is natural and lifelong. You actually love responsibility and tend to pile on the work. Others may find you frugal or unnecessarily Spartan, but you love simplicity as much as they love opulence. You can discriminate the wheat from the chaff and put great value on organization.

Venus Conjunction Saturn 02°45'

You have a love affair going with the mind and you value all of its offspring: words, ideas, thoughts, and such. And you love to talk. In particular you appreciate good conversation, and you feel that stimulating mental adventures (either alone or with others) are among the most exciting experiences life offers. You have a built-in sense of discrimination when it comes to the intellect -- all mental activities.

Mercury Conjunction Venus 04°04'

You find the past, tradition, and all that is historical very romantic, and the ideal world of yesteryear seems to beckon and call. You are most imaginative when it comes to anything spiritual, or psychological -- pertaining to the psyche. Others find you entrancing and always able to draw them into your world of images and dreams. You can inspire them with spiritual ideals. No one has any doubt that you are a high floater -- a full-blown dreamer, complete with built-in psychic abilities and probably given to visions.

Moon Conjunction Neptune 06°55'

Challenges

Life can be challenging, and things are not always easy. The major challenges in a natal chart are where we can expect increased activity and personal involvement -- ready or not. These critical areas of life can be difficult, and the resulting confusion and possible obscuration often makes it hard for us to see and act with normal clarity. Therefore, when it comes to the following factors you may wish to exercise caution and extra patience.

Your passion for freedom and independence stops short of the personal and private areas of your life. You don't feel so free when things get psychological and analytical. You tend to rebel against all interaction that gets close and personal. Feeling vulnerable or exposed causes you to freak out and break away.

Uranus Square Pluto 01°40'

You are very competitive -- even pushy -- when it comes to partners and other people. You have a great social drive and love to work in a group or with close friends.

Mars Opposition Ascendant 02°21'

You tend to be stubborn and unable to make solid career choices. You get carried away and go off in directions contrary to your actual needs. Your judgment in vocational matters is often off, sending you on a wild goose chase. In addition, there is possible difficulty with authorities and the law and/or differences with older people. To use an old adage, you can (at times) be your own worst enemy. The advice of a trusted friend regarding career is to be recommended.

Sun Square Jupiter 03°46'

You excel as a social being, and should make a career out of your deep-seated interest in other people, partnerships, relationships, and so on. You find yourself through other people.

Jupiter Square Midheaven 05°58'

Talents and Abilities

Despite whatever problems we may have, there are areas of life where we have clear insight and real talent -- natural ability. When it comes to these matters, our judgment is sharp and we always manage to take charge. We have the knack. It may be as simple as the ability to work hard and accomplish things without something going wrong. An innate sense of the workings of these parts of life makes it easy for us to learn and accomplish things where they are concerned.

You have a great love of the written and spoken word, and ideas in all their flavors are what you like best to work with. Your enthusiasm for mind, the intellect, and the world of ideas makes it easy for you to communicate these things to others. You would be a good teacher. You have no trouble putting your feelings into words, and what you say always carries a lot of content. You could make a fine entertainer and an excellent speaker.

You find it easy to work with music, color, fabric, and the arts -- whatever is beautiful and genial. You would make a superb decorator of homes and, in general, all kinds of environments. You enjoy moods and emotions (whatever is psychological), especially in a group setting. Younger people, the helpless, and the needy can always be found under your umbrella.

Moon Sextile Venus 04°60'

You find it easy to work with sensitive material, touching upon the more vulnerable areas of the mind or self. You are able to handle these delicate matters without ever breaking stride, for emotional and tender areas of the human psyche don't phase you. Success is indicated in education, politics, or the law. You know how to attack and solve problems, whether personal or public. Chances are, your social skills mean that you are popular with almost everyone.

Landscape: Major Life Periods

What follows amounts to a brief overview of the first thirty years or so of your life -- a road map of the years to come. Since childhood, adolescence, and early adult life are so crucial to each of us, an attempt has been made to describe these formative years. Based on the gradual movement of the planet Saturn, this is one of the most tested of all astrological techniques. It is used by almost every professional astrologer as part of any personal consultation. Provided that your time of birth is more or less accurate, you will find this information both accurate and informative. Here is a general life overview, followed by a close-up on your current changes -- what is happening right now. First the overview:

Your Personal Background

A fairly easy childhood up until around the 11-12th year, at which time you will begin to become more subjective and inner-directed. This could mean that your adolescence is somewhat more lonely and less socially oriented than the average. This inner time of exploration lasts until you are about 18-19 years of age. At that time, you will proceed to take hold, discover yourself, and become more outward -- in a rather short time. Your sense of confidence will take hold and build, and the years of introspection will pay off as you begin to reach out. The years from 18 through 25 or 26 will be ones of hard work and continued gains in self-confidence. From the 26th year, your real climb to fame and fortune will commence. Your 30s and 40s will be very good and successful years.

Your Current Situation

Now for a close-up of recent years: while landscape was quite general, the dates given in this close-up should be much more precise. Life is composed of sections of time, each devoted to one kind of activity or another. We go along for a while in one direction until something changes within (or outside) us and we head off in a new course. Some of our earlier activities dry up and new ones spring up in their place. What follows is an analysis of the time period in which you find yourself now. Don't look here for a day-to-day account of life but rather to get a picture of this stretch of time, "these years."

Jun 12, 2004 3rd Pass D> (Age127 2m)

The date(s) (above) indicate the end of a very outward and perhaps successful period of years for you, during which you may have had an opportunity to establish yourself both in career and reputation. You may find yourself becoming less interested in the outer and social world and more interested in your own inner changes. There will be less of an impulse for recognition along with a growing sense of being by yourself and enjoying it. This coming time will be less outward and may call for a change of approach and perhaps life style. This is not a time of outreach, not the best point to start any great projects. Instead you may wish to consolidate what you now have, pull back a bit, and prepare for a number of years of a more inward and personal nature. This will be a time of introspection, and you may find yourself letting go of plans and projects started in a more outward phase but as yet uncompleted. You may take an interest in your own psyche, religion, and spiritual ideas. This is a time to absorb and take in new impressions and information. In summary, here is a natural breaking-point in life, a time to let go of what has been occupying you for the last years and assume a new attitude. Many people find themselves withdrawing socially and enjoying their own company. In summary: This marks a more inward period that will last 6-7 years, during which you may feel insecure and on your own. Don't expect to make great headway in the outer, social world. Bide your time and prepare for your "coming out" a few years down the road.

The Elements, Modalities and Angularity

Elements, modalities, and house quadrants. These are all techniques used by astrologers to gain a general picture of how a person measures up. How do your planets and houses total up? Which do you have in abundance, and which do you lack, if any? Those with high totals show what we can or must do in life. These are qualities we have. However, most people are more interested by what they lack or want -- their lowest totals. They tend to study their "wants," imitate, and even pretend to have them. The old adage is: we become what we want (or lack), while we do what we can (or have to do). Here are your totals:

You're concerned with preserving the status quo and are stable and methodical in your ways of going on. You resist change and may have trouble getting started, but once on the move are

indomitable. You mistrust that which is new or untried.

Have Earth

You could have difficulty getting your ideas across to others, sometimes feeling inadequate in matters that require logic or the use of your mental powers. You may have doubts about those who talk too much and seem "long" on ideas.

Want Air

Not a great starter, you may have trouble initiating things and getting them moving. You may need help from friends or others in learning how to be more aggressive and outgoing.

Want Cardinal

Circumstances can throw you into positions where you must use your mind and deal with communications, service, or enclosed hidden interests. You may deal with education, psychology, spiritual enlightenment or teaching principles and techniques.

Have Cadent

You could have difficulty getting outer recognition for your efforts or accomplishments. This doesn't mean they're worthless. It does mean you should throw your efforts into work or ventures you really love doing, not for others.

Patterns: Your Inner and Outer Self

Here we are examining your basic attitude or approach to life, what is called by some the archetype or soul-type. If you know something about your particular soul-type, this can provide valuable information as to the general direction and purpose of your life. In particular, it is important to note the difference, if any, between our outer personality (the way we appear to others) and our real inner self; how are we, in fact, as people get to know us? Not all people are as they seem.

Appearances can be deceiving, and here is a case in point. Your appearance (the way you come on) and personality suggest that you may be inward, quiet, and concerned about what other people think. This, in truth, is not the case. Although gentle-mannered, conservative, and sensitive on the outside, you are tough as nails on the inside -- as anyone can testify who gets to know you very well. The fact is that you like attention and have a real need to be at the center of any group. Your more sensitive style hides a strong, aggressive, and quite confident nature. You are at home in a crowd and enjoy the attentions of others. You expect them to come to you. Your mild mannered smoke-screen hides a real tiger. Appearances aside, let's take a look at the real or inner you.

Geo: Trine Helio: Square

Your Soul Type

You are very gifted, having great magnetism and warmth and also a keen and powerful mind. You can do anything you want to do in this life, if you can manage to get moving in one

direction and keep at it. This is a very fortunate chart, but one that may result in laziness. You may find it more convenient to neglect your mental, conceptual, and organizational abilities in favor of your social agility and animal warmth. People will value you for your warmth and dynamic qualities as much as for your ideas, and you may find it easier to acquiesce with your animal warmth than to develop your mind. You can relate to almost all types of people with equal ease.

The Key to your Inner Life

Each person has one or more key qualities. Here we are not referring to our appearance or personality, but rather to our inner nature, how we are when someone really gets to know us.

You are driven and passionate in your pursuit of change and inner growth. You possess, at the core, an intensity that burns through superficialities, searching for opportunities to face the truth and render the evident to view. This ceaseless analytical activity, while central to your nature, may be the source of discomfort to others.

Pluto

The Key to your Personality

You are driven and passionate in your pursuit of change and inner growth. You possess, at the core, an intensity that burns through superficialities, searching for opportunities to face the truth and render the evident to view. This ceaseless analytical activity, while central to your nature, may be the source of discomfort to others.

The Personal Hot Spot

Your mind (all that is mental) mark the single most active factor in your make-up. The key spot in your personality and circumstances is your mind (the world of ideas and communication).

Mercury

Interface: Innermost qualities

This feature is based on an intricate analysis of the position of a particular planet in relation to the orbital planes of the other planets. The resulting series of crossings, or nodes, tells us something about the nature of our innermost inclinations (Inc) and disinclinations (Dis). These indicators are not to be considered at the level of our personality, but rather are deep-seated parts of our innermost character -- our internal biases. These pros and cons are not apt to change in the course of our lifetime.

You have much trouble organizing your thoughts, and your lack of discipline is a constant hassle to both you and others. Study and mental self-control are not your cup of tea. You can say things that are simply impractical and have trouble limiting yourself to ideas that are down-to-earth, pragmatic. Some of your ideas are just plain irresponsible. Mental hassles can be a constant headache for you.

Mercury Dis Saturn

You find talk of the other world, and mysticism in general, to be a real hassle. You struggle to keep this and any spiritual material at bay and, like your mind, down-to-earth and quite conventional. It may be hard for you to think about spiritual matters, much less express them in words or thoughts. You like your dreams neat and are troubled when thoughts of other lives and what-not intrude. You would rather not talk about it.

Mercury Dis Neptune

You don't like making career decisions, and you can get downright confused when it comes to making the right choice. You may not appreciate advice, and this makes the problem somewhat more complex. It could be important for you to get the counsel of a trusted friend, someone who can advise you as to the right choices. Whether you happen to like them or not, once you have determined the right route, you should take it.

Venus Dis Jupiter

Your tendency to compromise and settle for less than you dreamed can be a problem. Given the opportunity, you may choose the path of least resistance, willing to bypass some of the things you always wanted in favor of expediency. Career moves must be given special attention. Tension results when you ignore your own desires (the things you need and want) and take a course of action, job, career, or whatever that can never satisfy. Or worse, you may find yourself in a job that is compromising.

Jupiter Dis Neptune

You are responsible to the extreme, always taking on obligations and pushing yourself to the limit. You pursue your obligations with much emotion and obvious enthusiasm. You are Spartan when it comes to your needs and surroundings. Small and less are beautiful for you. If anything, you try too hard and tend to force things. Others may find your approach severe and hurtful at times. You can be too sober and frugal.

Saturn Inc Mars

You have more than just the gift of gab. Your words and ideas can transport and enchant listeners, carrying them beyond the world as they know it into the world as they wish it could be. Your imagination and sense of what connects all of life is felt in your speech and in the way you communicate. You love a good story, and a sense of the mystical pervades every one you tell. You are at home in the world of myths and dreams, for your mind soars on wings of the imagination.

Major Transits Happening Now

Astrologers use the term "transits" to mean the positions of the major planets that are overhead (in the sky) right now and their relationship to our birth chart. Transits are very important indicators of the current situation in which we find ourselves. They can provide insight into what we are now going through. Here are the dates when the next major transits for the planets Jupiter, Saturn, Uranus, Neptune, and Pluto are exact in your chart. Some dates will have already passed and some are still to come. Remember, with these large planets transits don't just

happen on the day when they are exact. They cover a wide span of days, weeks, months, and sometimes years, depending on which planet is involved.

In general, transits of Jupiter take from several days to a week or two to complete, while those of Saturn take from two weeks to a month to play themselves out. With the outer planets, the period of activity is even longer: transits of Uranus take about two months, Neptune three or four months, and Pluto takes about a year. Uranus, Neptune, and Pluto move so slowly that the complete transit experience may take a year or two to complete itself. So be prepared to work with these situations.

House Activity and Emphasis

The twelve houses of the horoscope, particularly when they are occupied by a planet, provide a clue to areas of special activity and use. Here is an analysis of house activity based on planet emphasis:

First House: Appearance, Approach

The first house has to do with how we appear or the way we come across, thus our appearance and personality. This is the essential stuff that bubbles up in us spontaneously and that is obvious to others as our trademark or activity. It is what makes us each so personally different. This house rules our personal self and everything about us that draws a reaction from our surroundings or others.

First House

Cancer is the mother of the zodiac, always making a home, protecting and providing for others. A sensitive sign where feelings and real experience count more than cold logic. It doesn't get any more physical and emotional than here. This sign has a sense of substance, a home base or foundation. Cancer energy is always limiting, bringing us down to Earth, grounding our every thought in experience, in substance.

Cancer

Second House: Possessions, Reactions

The second house is concerned with how we respond to or field whatever impulses or unique and personal qualities we manifest via our first house. This is how we hold or "have" things (possessions, material goods, money, and the like). The second house always refers to how we secure ourselves, the kind of response we get from life and those around us.

Second House

Leo energy is expressive, emotive, and concerned with awareness and a sense of pride and ownership. Here is always a sense of home base or confidence from which the aggressive and

outgoing Leo energy operates. Often very artistic, and always theatrical and expressive, this sign is good for creativity and the arts. Warm and big-hearted, this sign belongs to love of animals, sports, children.

Leo

You may have unusual ways of responding to what life offers you, with the result that the way you make your living is somewhat eccentric. Your means of support may be individualistic and different from the group.

Uranus in Second House

Third House: Inquiries, Communications

The third house is concerned with explorations, investigations, and inquiry and research of all kinds. It also rules connections, communications, wires, tubes -- anything that we can get through with our body, mind, voice, letters, what-have-you. It is here that we explore and search for the limits of our life, whatever we are working with at the moment. A very mental house, concerned with finding, furthering, peering, and all manner of questioning. Traditionally rules short journeys, siblings.

Third House

Leo energy is expressive, emotive, and concerned with awareness and a sense of pride and ownership. Here is always a sense of home base or confidence from which the aggressive and outgoing Leo energy operates. Often very artistic, and always theatrical and expressive, this sign is good for creativity and the arts. Warm and big-hearted, this sign belongs to love of animals, sports, children.

Leo

Fourth House: Home, Family, Security

The fourth house is where we send down roots, find our limits, and generally secure ourselves. It is the end of any searching we might have done in the third house. Here we find or end our search, settle down, and manage to get in possession of the whole situation. This is our home and the base from which we can work, feel, and experience. This is the root of our experience, the core or thick of it.

Fourth House

Virgo energy is analytical and precise, always separating what is worthwhile and worth supporting from that which is outmoded and of no further use. A mental sign, where thinking and examining are in high focus. Also, a different kind of mother, here an endless caring and worrying (fussing) about just about everything. Always compassionate and responsive, Virgo energy is service-oriented above all, often thinking and caring more about what others are doing and thinking than for self.

Virgo

Fifth House: Expression, Creativity

The fifth house has to do with awareness, emotion (to move out), and expression (to press out). Here there is always a growing sense of self-confidence and even a pride of ownership, since we begin to recognize and own our experience. We know that we have had or are having an experience. All forms of expression and offspring are connected to this house -- children, animals, creative expression, and so on. A sense of direction and ownership takes hold at this

point in our experience.

Fifth House

Scorpio is the most famous sign. Intense, passionate, and very personal, Scorpio rushes past superficialities and right to the heart of any matter. A loyal friend but a fanatic foe, this sign does well in politics and all areas where someone who dares is rewarded. Often associated with sexual energy, perhaps due to its tendency to strip away veneer, laying bare anything that is there.

Scorpio

Sixth House: Responsibility, Work, Health

The sixth house has to do with salvaging and preserving what is good and healthy in our experience. Here we separate the wheat from the chaff. We begin to care for ourselves and our experience and thus health, nutrition. The idea here is that we are able to analyze our experience and have thoughts about what is pure and what is not. The sixth house is an attempt to save the heart of an experience, one that already by that attempt is beginning to pass or not cohere.

Sixth House

Sagittarius is nothing if not direct, candid, and to the point. Sometimes harsh, this energy always is concerned with the absolute truth of the subject at hand. Associated with philosophy, religion, and all things that last, Sagittarius energy is always welcome in politics as well as social and community endeavors, where its basic fairness and evenhandedness is helpful.

Sagittarius

You are very motivated when it comes to matters of care and service -- taking care of details. You are up for any task that requires conservation -- separating the wheat from the chaff. An urge to salvage everything.

Mars in Sixth House

A career in one of the service or health occupations is possible, for you may find yourself automatically taking care of the needs of others. Your occupation involves health, food, and all attempts to restore, salvage, and make the best out of things.

Jupiter in Sixth House

Seventh House: Relationships, Other People

The seventh house is the house of partnerships, relationships, social life, and all that carries us beyond our personal self into an awareness of other people, community, and the like. This includes spiritual awakening and the discovery that we are more than just our personality. Here we begin to respond to our personal needs (and those of others) for the first time. We can see what is going on and are committed to it; thus, marriage and yoga, or union, is indicated in this house.

Seventh House

Capricorn is the business energy of the zodiac, for it is the very opposite of the emotional Cancer. Given to clear-headedness and practical insight and vision, this sign always takes a distanced perspective, a cool appraisal. Logical and painstaking, Capricorns love hard work and earned results. Money and things in general are very important.

Capricorn

Eighth House: Business Savvy, Elimination

The eighth house, traditionally the house of death, is concerned with getting rid of excess parts of ourselves that we see we no longer need. Thus this house also covers initiation and any activities where we are transforming toward a more integral position, getting to the heart of things. The no-nonsense quality of the eighth house makes it good for business ventures since here we are stripping away the dross to reveal the truth or essence of the subject.

Eighth House

Aquarius, the sign of humanitarian goals and altruism. Always impartial and nonsectarian, Aquarian energy is communal (even global). The focus is on the goal, and the goal is always one that is for the many and not the few. Thus this sign is connected to far-seeing visions, world views, and group work of all kinds. This sign tends towards coolness, independence.

Aquarius

Ninth House: Religions, Philosophy, Ideas

The ninth house covers long journeys and religion (the longest journey of all). Here is what remains of the purification that takes place in the eighth house -- the seed, or essence, of an entire cycle of experience. Religion comes from a Latin word that means to bind back, and thus refers to all things that last or endure, such as the truth. Essential ideas, philosophy, and all that is the very heart of things belong here.

Ninth House

Aquarius, the sign of humanitarian goals and altruism. Always impartial and nonsectarian, Aquarian energy is communal (even global). This sign tends towards coolness, independence.

Eleventh House: Dreams & Visions, Community

The 11th house has to do with putting our visions and dreams to work. We have been on the mountain and had a vision (10th house). Here we take our vows never to forget what we have seen and to work hard to make these dreams into reality. Thus this house has always been connected with altruistic and humanitarian goals and trying to set them in motion. It is the house of friends and community, because when we are powered by a real insight or vision we share with all -- irrespective of differences.

Taurus manages to respond, possess, and "have" just about everything possible. This is a nurturing and fertile sign in that any seed or impulse is cradled, bringing forth growth and development. Always accepting, mothering, providing a base for... a matrix or womb where growth takes place.

Twelfth House: Sacrifice, Psychology, Acceptance

The 12th house is about all that we go through in order to make our dreams into reality and manifest them in the world around us. It covers what we are willing to put up with, the sacrifices we will make in order to bring across what is really important. This is connected to prisons, institutions, betrayal, self-undoing, and the like, because it is here that we must choose to take some possible abuse for the sake of the message we are carrying, or blow it all away with a

negative reaction.
