HOW TO USE THIS REPORT

In the pages which follow, you will see descriptions of your character traits, relationship potentials and challenges, as well as career potentials, and even more.

All or most of these sometimes intimate descriptions will be linked in some way with your past lives and your experiences in the planetary realms between lifetimes (the interlife).

Yet, you may ask, how can this information best be used?

First, **HELP YOURSELF**. The enclosed uplifting commentary can only be truly beneficial if you see it as a means of self-help and self-transformation. So to get the maximum practical benefit out of each page of this report, focus on connecting what you read with what is going on in your life now.

Next, **LOOK FOR PATTERNS**. When you see repeated references -- for instance to similar careers, pursuits or vocations -- you should consider these references seriously. They demonstrate a positive karmic connection which you now have with these same career-related potentials from past life endeavors. So, because of prior life success, these areas of expression should be easier for you to find rewarding or to succeed in, as compared with in other areas.

Also, pay close attention to **REMEDIAL MEASURES**. For instance, you may be given an affirmation to use in meditation (or a prayer). Or you may be given a crystal/gemstone to wear. These means of balancing out challenging vibrations can indeed be very helpful, especially if used in a hopeful manner.

Finally, this report is a synthesis of past life and planetary interlife interpretations originally given clairvoyantly by Edgar Cayce, for individuals with your same planetary patterns at birth. So in applying this report to your personal life, you should **RESPECT INNER GUIDANCE** -- through dreams, meditation and past life regression for example -- as primary resources for this kind of information; and most important, **RESPECT YOUR FREE WILL!** You alone must choose and know what is really best for you.

Your birth chart interpretation is based on the positions of the planets at the time of your birth.

Astrologer Ry Redd calculated on computer the astrology charts for hundreds of people who received readings by Edgar Cayce which contained astrologically based information. By studying these astrology charts, Ry Redd determined what planetary influences were most likely responsible for the readings by Edgar Cayce. In many cases the astrological basis of the Cayce

readings appears to be very straightforward. From this information Ry Redd was able to develop, in conjunction with the computer programmers at Cosmic Patterns Software, an analysis of your birth chart as Ry Redd believes that Edgar Cayce's psychic readings would have interpreted it. Ry Redd's research effort was exhaustive and was conducted over many years, some of which was spent at the Edgar Cayce library at the Association for Research and Enlightenment headquarters in Virginia Beach, Virginia.

For the benefit of students of astrology, these positions, along with other technical information, are listed below:

Your Past Life Report begins on the following page . . .

Your Sun is in an inharmonious pattern with Jupiter.

Your afterlife experience in the realm of Jupiter brings you a helpfulness in getting along

with those in powerful, prominent positions, especially in helping them to develop brotherly love in their actions. You have great abilities in your associations with such individuals in these ennobling directions. As long as you avoid tendencies toward false pride and taking any selfish advantage of your influential role, you should continue to bring harmony into the lives of others whom you contact.

You also have the capacity from Jupiter's experience of keeping balance and remaining tolerant while going through various turmoils about you. These challenges are most likely to have taken the form of antagonisms on a larger scale dealing with groups, organizations and institutions as well as individuals around you. These experiences have probably not been without anxiety for you nor has your judgment always been without exaggeration. However, your patience and capacity to forgive are the basis for your endurance of such animosity and unpredictable behavior on the part of others.

Your mental trends and self-expression will be in very definite, ambitious directions this lifetime. One result of your drive to make yourself felt is that you will be heard of from both far and near as a powerful soul with considerable broadness of vision. This drive can be a constructive expansion beneficial to others -- while contributing to your soul development -- or, it can be merely an expansion of your desire to gratify your own motives (the latter will most often take the form of extravagance and questionable judgment in finances).

As to which of these will prevail, the answer lies in what you do in applying your free will and your abilities to know what you have set as your ideal. Resources for ideals include reading English literature and history, along with inspiration from music. As remedial measures for this somewhat challenging pattern, the wearing of planetary gemstones about the body can be a helpful vibratory influence. Specifically recommended is either the turquoise blue or pigeon-blood ruby. [1143-2]

Your Moon harmoniously aspects Mars.

The ever-emotional Moon points most directly to past lives where you experienced karmic emotions, including lower Mars-ruled passions. These emotions have been tempered and moderated during your previous lives. This prior resolution of your passionate animal side is carried over for your constructive use in relating to others on a personal level in the present. Therefore, regardless of your sex it makes for good relationships with women.

Past life indicators include a recent lifetime in America's pioneer days and an earlier incarnation involved with the Roman Empire. These likely experiences give you a great deal of courage.

Also, from your previous lives and your soul journeys in the Mars sphere of consciousness between lives, your subconscious feelings are in basic harmony with your expressions of energy. Positive influences of this resourceful aspect incline you not only to be courageous, but also energetic and healthy, with excellent recuperative powers and an overall strong vitality.

Your Moon harmoniously aspects Mercury.

Your strong mental urges and high intellectual abilities in virtually any direction you choose arise from your afterlife soul journeys, that is, the activities of your superconscious when absent from the material, earth plane.

Now, at the time of your birth there was a particularly favorable pattern between the Moon, mirror of karmic emotion from past lives and Mercury, heavenly realm of the mental. This carries into your present life from your previous one a great deal of harmony between your mind and emotions.

For instance, in a prior incarnation, perhaps in your immediately previous life, you may have been, or at least closely related to, an important public figure. During that lifetime your communication and basic social skills were highly developed, perhaps out of necessity.

Moreover, you read from the resourceful side of your akashic ledger at the time of your soul's earth reentry at birth. This brought back to you from your previous life a basic integration and natural coworking of your feeling and thought processes.

Your mental-emotional harmony together with your powerful intellect gives you an extraordinary capacity to communicate your ideas to others, whether privately one-on-one or publicly before a large audience. These communication skills, together with your alert mind, interesting conversation and sharpness of perception, all combine to make you a natural teacher and writer, especially in training the minds of the young and in carrying out a personal mission to deliver a specific message.

Perhaps worded in your own way, let your prayer be something like, "Lord, I am grateful for the ability to respond to others with genuine, loving concern. You have given me the willingness to lend a sympathetic ear, and the moving stories I hear prompt me to help people in need. Also, Lord, I am grateful for a good memory, and for the skill to communicate my thoughts and feelings effectively. With these gifts, may I spread Your message of love to those who yearn for hope and understanding." [3948-1, 2459-1, 140-3]

Your Moon harmoniously aspects Saturn.

From our past lives the Moon mirrors our karma back to us for our growth in the present life. One way this works is through the aspect formed at birth between the Moon and other planets, such as Saturn. Your favorable aspect pattern between the Moon and Saturn reflects for your use this lifetime resources from the "plus" side of your akashic ledger. That is, you are again presenting to yourself positive karma from past earth lives.

For instance, in a prior incarnation -- perhaps your previous one -- you were probably responsible for a public-oriented institution or organization involved with education in some way. In the present you have a very strong sense of duty, excellent organizational skills, a good nurturing capacity, extraordinary teaching abilities and can well handle responsibilities working with any organization that does business or deals with the public.

Bear in mind that earth incarnations are principally emotional experiences. The fortunate timing with which you chose to reenter the earth plane carried into your new life a basic harmony between your feelings and emotions on one hand and your practicality and common sense on the other.

Introversion, however, is likely; yet you are quite able to use your introverted urge in a constructive, practical manner as a distinct opportunity for soul development. For instance, you can use your "loner" tendency to maintain your self-confidence, spiritual attunement and consistency concerning the ideals and higher personal goals you have set for yourself this lifetime. [633-2, 759-1]

Your Moon harmoniously aspects Venus.

While other past life influences and symbolic aspect patterns related in this report should be taken into account -- particularly other more challenging ones -- this favorable Moon-Venus pattern is excellent for marriage and family life. Souls should be attracted to you from your cosmic past who will take positive roles in the present both as your helpmeet/helpmate and as your children.

You will also probably attract souls from previous lifetimes who will be in positions to help bring you financial benefits, either through your career, marriage or in other ways.

The Moon acts as the reservoir of your past life resources. These benefits earned by you in previous lives are mostly of a Venusian nature. In addition to inclining you towards having an attractive and loving personality you are likely to have an above-average proportion of the Venus temperament, including optimism, charm, cheerfulness, and popularity.

This aspect also brings a love of harmony and order, together with Venusian abilities domestically and publicly, especially in creative, art-related endeavors. You should pursue any opportunities to develop as well as apply your artistic talents and your good sense of harmony and order.

Your Moon is conjoined with Neptune.

Strongly inclined toward the spiritual and mystical, you are exceptionally intuitive and sensitive. Being especially impressionable, and often psychic, at least as far as absorbing the feelings and vibrations of others is concerned, disillusion and disappointment are likely to frequently inhibit your emotional reactions to life.

For instance, one manifestation of this challenge is your tendency to be verbally inhibited and to keep your powerful feeling nature and great sensitivity below the surface, out of the sight of others.

Your inner longing for love, compassion and spiritual freedom through mystical union is a pursuit that can not be found outside yourself, in the external world of personality and materiality. Your search can only be rewarded by going within, in your prayer, meditation and dream life. Your intense devotion to a spiritual ideal or to an idealized loved one is also reflected in a likely urge toward public or social service. You also probably have marked artistic and musical talent, yet may lack the outward drive to pursue an active involvement in these creative areas.

In other words, from your experience in Neptune and your past life review carried out in the Moon sphere between lives, you have an innate tendency toward the ideal and the easy, the beautiful and the harmonious, and have natural inclinations toward the arts, including acting. Yet you also may have the tendency to be a bit lax in applying yourself. Especially when it comes to hard work or in taking extra time and patience, you may tend to slide by and take the easier way to attain your goal. With application of your will, this may be overcome.

The Moon experience immediately after ending a given lifetime brings up for review your emotional karma from the life just ended, particularly your relationships with your family, especially your mother. From your experience in Neptune, you are likely to attract strange or peculiar experiences in your home life, such as secret enemies and intrigues which bring special challenges to your ideals as well as your emotional vulnerability.

Your health and physical constitution are likely to be as sensitive as your emotional body (although any health problems, particularly when you are young, are likely to be just as hidden as your feelings). Be cautious about drugs of all kinds and especially anesthetics, should such ever

become necessary.

Wearing the moonstone or agate may have a subtle yet helpful vibratory influence as a remedial measure for some of these challenges. Also, whether worded as a prayer or affirmation, the following may be quite valuable in your inner life: "I do not wish to allow my very sensitive nature to become an excuse for emotional irresponsibility. To avoid misleading myself or others and causing unnecessary heartache, I will learn how to examine my attitudes carefully before proceeding with any project or relationship with another. I will instead seek protection against the unbridled expression of personal feelings, and will bring my emotions (and ideals) under conscious control." [1401-1]

Your Mercury is conjoined with Saturn.

You have considerable depth of mind yet have the exceptionally challenging experience -- from your Saturn indwelling -- of continual changes in life. One day every indicator of success will be present regarding a given relationship or endeavor and the next day it will appear to dissolve. This is probably karmically rooted in your finding many individuals in whom you have placed your faith or confidence to have shaken that faith by letting you down.

With application of your will, you can turn this into a distinct opportunity which can prove very beneficial for not only your soul development but also your overall material success. Because you are so ambitious, your characteristic inclinations toward hard work and persistence should guarantee this for you. [195-14, 2328-1]

Your Mercury is conjoined with Venus.

You have high intellectual abilities together with a strong home loving and artistic temperament. You have a cautious, resolute and tenacious mind, reserved and self-controlled as far as feelings for others is concerned. You are interested in people, are a good conversationalist and companion, and a wholesome influence on most groups. Your entrance into groups or companionships with others is even more beneficial to them than to you. You would make an excellent creative writer or designer, being interested in all forms of the arts, especially music, color and form.

In fact, your intellectual, artistic abilities are very likely to be considerably above average. Therefore your potentials especially in the literary field are exceptional. Commercial applications of your mental abilities in law and advertising are also encouraged.

The love influence in its highest or noblest sense is primary for you. Were others to criticize you for allowing what they perceive as carnal love to be influencing you excessively --

your experience of "love at first sight" for example -- you do little condemning in return. Although you and many others see the sacredness of such physical expressions, your love expressions are likely to be mostly on the level of speaking kindly and having generosity, a gentleness of manner and trueness of spirit. You are more likely to fall in love with a beautiful evening, and to find much wonder in the moon, the planets and stars. The beauty of nature, with its clouds, lightening, thunder and other natural voices are for you -- though maybe hard for others to understand - - an especially rewarding, stabilizing influence.

Attraction to and by the beautiful and handsome in the opposite sex will often influence you a great deal. If other past life indicators point to challenges in this area of your personal life, they are most likely to deal with the influences of passion, on both the mental and purely physical levels. That is, your feelings, desire, and sensation -- all elements of passion -- may at times be overactive, even impulsive. There is also some danger of jealousy and misplaced trust in love relationships. This may actually be due to a mild aversion of forming close relationships, because of past life associations needing self-healing in the present.

Moreover, it may often be difficult for you to hear from others, or yourself express through stories, jokes or the like, that which is considered coarse or crude. However, having considerable mental concentration powers as well as charm you can control and disguise your feelings when you feel the need. [1136-1, 2612-1, 2386-1, 1792-1, 234-1, 305-3, 1637-1, 304-5, 3271-1, 2124-3, 1716-1, 1991-1, 1230-1]

Your Mercury harmoniously aspects Mars.

Between death and rebirth you have experienced constructive planetary-loka sojourns in Mercury and Mars that may be a helpful influence in your present life. This makes for an inquiring mind, one delving into the thoughts and feelings of others and their experiences, especially as to their mental reactions. Your mental inquisitiveness manifests on many levels of action. For instance, you can draw conclusions from the experiences of others as well as how they compare with your own experience.

From your Mars afterlife experience there is a benevolent influence in your life so that often in the disputes of others, in the wrath and anger they express toward each other, there may come from your own mental attitude peacemaking experiences even in the material business world of competition that are beneficent. Knowing how hard it is to be a peacemaker at all, much less where money and cutthroat competition are concerned, perhaps you can more fully appreciate your talents in this area. Therefore as a peacemaker under the most trying of conditions and beyond being merely inquisitive, you are a soul who is adept at -- as colloquially expressed -- "getting inside people's heads".

You have experienced the planetary consciousnesses in which you may manifest -- in your dealings, analyzing and studies of individuals and groups -- the highest purposes in the experiences of others. You are, then, one with a high ennobling, uplifted and stimulating intellectual energy. In addition, you are one given to be openly active in helping others to help themselves. Teaching and career counseling, as well as writing and computer science, are recommended as potentially rewarding pursuits. [2910-1]

Your Venus is conjoined with Saturn.

Saturn brings many changes, some of them traumatic ones at times. At other times, Saturn brings steps toward greater responsibility and maturity. As to which of these alternative courses prevails, it depends on how you may have failed to apply your will in the past as well as how constructively you apply your free will in the present. For instance, friendships may often be stronger ties for you than business or family relationships, yet you probably have lost them when you didn't want to and couldn't get rid of some when you wanted to!

While you are reserved for the most part in your outward expression of feelings, you are still very emotional in nature, with a tendency to seek satisfaction of your Venusian love urges in a calculating, self-gratifying sort of way. You are also very determined, with the ability physically and mentally to carry forward to completion almost any undertaking. You will consistently find -- as you have experienced more than once -- that to have a habit of being more optimistic than the occasion seems to warrant will help you a great deal in making life more worth living, more enjoyable and worthwhile.

Your influence among other people has counted for them far more than you have ever given yourself credit for. Your love of the home and family life may have been misinterpreted and misunderstood by some of these same individuals. You may pray at times that you no longer feel so restricted by your obligations in these relationships, or at least that you can more cheerfully accept these responsibilities as spiritual blessings to strengthen your patience. Such experiences and duties have probably left you feeling as though you are not appreciated or loved. You also may be attracting people to you from past lives who cause you to suffer due to their selfishness. This in turn is likely to have inhibited you emotionally, making you very cautious about expressing your affections.

You may quite successfully redirect your creative energies in the direction of your career, becoming highly skilled in sales, management, executive secretarial positions, or in commercial art and advertising. The business world would be a good outlet for your parsimonious, responsible efficiency in money matters (traditionally Saturn contracts finances as well as love, money and affection, all of which are ruled by Venus).

Another type of work which would well channel your caring and organizing abilities is that of supervising healing/nurturing related endeavors such as practical nursing, home health care, natural preventive medicine and involvement with exercise centers or spas. [904-1, 2329-1, 1522-1]

Your Mars harmoniously aspects Saturn.

After one or more lifetimes of responsible achievement and pioneering success, in making your return soul flight toward earth re-entry, you chose a favorable time when the two most challenging planets -- the red and ringed orbs of Mars and Saturn -- were in a resourceful pattern. This symbolizes the best side of your experiences in and between past earth lives in each of these heavenly realms: for instance, courageous action from Mars and constructive reliability from Saturn.

Mental urges from your afterlife visitations in these planetary dimensions may come to you in flashes of insight in your dreams and during your deeper meditation periods.

As your life advances, you will find greater and greater success in practical applications of these inclinations, especially in business. You have an active career ambition in many directions yet from the standpoint of successful follow-through and effectiveness in a chosen field, very few careers are likely to qualify.

In fact, you are as reliable as you are courageous and have exceptionally good judgment, with an above average willingness to work hard to be successful. Yet at times your standards in evaluating the single best area of life where you can be the most effective may be too high. This is particularly true concerning your strong sense of moral responsibility and urges to be of service to others this lifetime.

Another related reason for this dichotomy between your having so many fields of expression open to you -- involving your personal relationships as well as your more public career activities -- and so few realistic possibilities to carry them to a successful completion is your detailed, technical orientation and textbook approach to evaluating a given undertaking.

These natural inclinations are actually tremendous professional assets which provide you with valuable resources for scientific research and writing in areas such as law, engineering, historical customs and folklore. [1256-1]

Your Jupiter harmoniously aspects Neptune.

You are one who would be called the old, or the more highly evolved, or greater developed

soul. You will benefit materially and spiritually this lifetime through applying your capacity to harmonize inner, soul-derived intuitions and psychic perceptions -- from your experience in Neptune -- and your outer, world-related judgment from Jupiter.

In fact, you have a very unique and broad capacity for and receptivity to all things mystical, mysterious and creative (in both the natural and supernatural sense). You are able to share with others the practical benefits and material applications of mysticism and inner guidance as few may.

In the application of your soul experiences in the realm of Neptune, with resultant mystical influences and unusual experiences in visions and in dreams, when analyzed will be found to be most valuable to many an individual seeking to know the effect of metaphysical and mystical forces upon the human family. Also, you could be an excellent investigator into traditions surrounding lost civilizations like that of the Druids, Mayans or Atlanteans.

When your mental and physical drives are from purely spiritual sources and your activities are entirely consistent with ideals of service for others, peace and harmony will be yours. However, when these promptings are self-centered, they will bring conflict not only mentally but materially, especially regarding your finances and health.

Therefore, with gifts like yours, it is of the utmost importance to first find out through prayer and meditation what are your true motives, spiritual priorities and ideals. Moreover, because of Neptune and its aspect at this particular time of the your sojourn into the earth, nearness to large bodies of water would enhance your spiritual and psychic attunement.

Hence, engage yourself only in creative activities that are constructive spiritually; that is, which create new, positive experiences for many other people. In addition to group healing endeavors and laying on of hands, you might also pool your resources with likeminded individuals in the search for lost, hidden or esoteric knowledge. Yet do remember that your greatest personal growth will involve your psychic sensitivity: your greater development will be through the sensitivity in your intuitive abilities. [620-1, 670-1]

NOTE: The Zodiac signs of the Sun and Moon are analyzed below. First they will be analyzed in the Tropical zodiac. If the positions are different in the Sidereal zodiac, then they will also be analyzed in the Sidereal zodiac. Also, if the Sun and Moon are in the same zodiac

sign, then only the Sun position is interpreted; the Moon position, being the same as the Sun position, does not need to be interpreted in this case.

Your Sun is in Pisces (Tropical zodiac).

Coming under the influences of Pisces, water and religion or spiritual matters are likely to have an untold influence on you. Of course, this depends upon the way you respond to these kinds of experiences, for they have probably played an important part or at least have been innate in your experience through many lifetimes in the earth.

Pisces means or symbolizes what is naturally, or by its very nature, representative of influences of the higher soul or higher spiritual level. Hence those things of the spiritual nature should preferably be the way in which your judgments are drawn, as to whether this or that activity should be your impelling influence. Not that you should become lost in motives or in influences impelling your actions: just use those things of the spiritual import as the measuring rod of your activities and experiences.

In light of this, the period around the birth and ministry of Jesus, the Christ, is the clearest past life for you to recall and build upon in the present. You may even remember a lifetime as part of Roman culture, where priority was placed upon position in society and in the military.

Another early Church memory might be stronger for you: the hills around Galilee and the desert near the Dead Sea where the Essenes and others gathered to meditate and study. Then too you may be emotionally drawn to painful scenes of being among early Christians who were martyred for the courage of believing in the Messiah. Regardless of specifics, you are quite likely always to be dominated by a sense of expectancy and mystery.

In later lifetimes since the early Church period, you were probably celibate, as a nun or monk of a leading religious order.

Noble, compassionate Jupiter and spiritual, mystical Neptune are the two rulers or key symbols for the sign of Pisces. From Neptune comes the intuitive forces, the mystical or mysterious influences in your experience, whether you allow them to be mentally or consciously active or not. Another influence of these planets as expressed through Pisces is that although you have a great deal of compassion, you may be too passive in expressing your personal energy and soul force. Also, it will probably be much easier for you than for most people to suppress your sexual desires because of the memory of one or more past lives when you set aside your personal

concerns for the good of the entire community. [816-3, 1506-1, 997-1]

Your Moon is in Taurus (Tropical zodiac).

Taurus' influence inclines you to be somewhat headstrong, with a very set and determined manner. Hence you are not always understood in everything you try to do, or in things which you know yourself to be true. Yet long-lasting are the influences you make on others with whom you have deep associations from previous lives.

Remember, success or accomplishment in life is not a matter of some great force or influence. Just as taught by the Master, it is not the power of the storm or of the earthquake or of great noises and the like. Rather it is the still small voice speaking from within you which becomes the influence through which movements of truly great forces really arise.

Since your childhood, being outdoors and living close to nature is probably more significant to you than to most others. This love of nature and the great outdoors is from one or more past lives spent on a farm or in nature settings. For ages countries on the Mediterranean such as ancient Egypt, Greece and virtually all of the ancient Mideast lived in close contact with nature. So did the Native Americans of pre-Columbian America. And surely you were one of them.

Farming, fishing and hunting then, are among your familiar pursuits (even if they only involve occasional outdoor activities like gardening, boating or indoors, tending flowers and plants). You also probably have greater confidence in holistic, natural healing approaches than in modern medicine's "advanced" yet artificial technology.

Now, Venus is the planet which rules or best symbolizes the essence of the sign Taurus. Of course, Venus symbolizes the female sex. Centuries ago in oriental cultures women were more feminine -- and experienced much more respect -- than today. A lifetime in Asia and lands like China, then, are also a likely part of your past life experiences.[1149-1, 1641-1]

Your Moon is in Aries (Sidereal zodiac).

From Aries are found inclinations often to be considered by others as being headstrong. You may also be very hard to convince alongside judgments you have made which have been the determining factors in your experience. Yet once you are convinced of something, you become very determined in that particular direction.

This tendency toward self-determination and being headstrong is probably rooted in at least one lifetime in ancient Palestine. Your likely link with the tribal nomads known as the Hebrews

is expressed in your urge either to be a powerful yet somewhat dogmatic leader or to be inclined to follow someone with strong leadership qualities.

Also, living in large or extended family units dominated by a strong director or leader (whether male or female), having special admiration for winners, or even being totally submissive to another person who you feel is somehow in charge of you and your life are characteristic inclinations from similar experiences long ago.

Of course, Mars is the primary planet which symbolizes or rules the sign of Aries. This makes Mars and martial urges of special significance to you this lifetime. Therefore, depending on whether or not you apply your will, responding to conflict situations with directness and force are likely to be among your subconscious urges. These urges are from your prior experiences in the realm of Mars and from one or more past lives in the harsh, ancient desert culture of Israel and neighboring Arab lands.

Also from Mars, the Ram influence and this past lifetime in ancient Canaan and Palestine you may feel a need not only to be a leader or director but to excel in your career or in more physical endeavors like exercising or a competitive activities such as sports.[279-4, 340-15, 1804-1]

Your Past Life Decanates

According to an ancient Vedic astrology method still practiced in India, Past Life Planets are realms in which you sojourned between earth lifetimes. They are identified through the position of your sidereal Sun and Moon in the decanates (a decanate is a one-third division of a zodiac sign; each is ruled by a planet). Any patterns involving these Past Life Planets are therefore of special importance. Pay extra attention, then, to any sections of your Report which interpret these planets.

NOTE: If your Sun and Moon are both located in a decanate which is ruled by the same planet, then only the Sun position is interpreted; the Moon's decanate position, being the same as the Sun's, therefore does not need to be interpreted.

Your Sun is in Pisces Decanate

Your sidereal Sun is in the decanate of Pisces, which is co-ruled by Neptune and Jupiter. This points to prominent soul journeys in the interlife realms of Jupiter and Neptune, and to one or more parallel lifetimes in which you were dedicated to spirituality, humanitarian, healing-oriented and spiritual, mystical endeavors. Your experiences then may have brought you prominence or notoriety in spiritual causes ranging from the Essenes and Gnostics around the time of Christ to Eastern temples and ashrams and later, in medieval or modern monastic life.

Of likely special interest to you in your present life are mysticism, spirituality and most movements toward Oneness and the mysteries of Life and Nature, including dreams and mystical kinds of music and art. These interests and urges are intensified from lifetimes where the sea or large bodies of water played a large role, as well as from your soul experiences between earth incarnations in the realms of Neptune and Jupiter.

Your Moon is in Leo Decanate

Your sidereal Moon is in the decanate of LEO, which is ruled by the Sun. The Sun as Past Life Planet indicates a high level of soul development and power with great potential for spiritual service and leadership in the present. As the Sun sojourn between lives is the highest interlife experience possible in this system, you may have voluntarily chosen to reincarnate to help and uplift others. One or more prior lifetimes of leadership in religious or state affairs, or both, in ancient Egypt, Persia, modern Europe, or elsewhere in Asia, is likely.
